

We Made Change

Now we need to ensure
free, safe, legal access
to services for all
women / pregnant people.

Abortion Access Campaign
West (AAC West) is a
women's collective based in
Galway set up to lobby
government on legislation
and ensure that abortion
access is widely available in
the West of Ireland.

The West demands local,
woman / pregnant person
focused care

- Must clearly decriminalize assisting with a termination.
- Must include accountability for conscientious objection or obstruction that causes delay in service.
